## ABOUT ME

I am a Multimedia Art student, I'm 23 years old. I was born in Riyadh, Saudi Arabia and raised in Manila, I am pure Filipino.

## LANGUAGE

- English
- Filipino

## EDUCATION

**St. Paul University**  
2018

**Lyceum of the Philippines University**  
2021 - 2025

## SKILLS

- Audio editor
- Photography
- Graphic design

## TESTIMONIALS

Gain more knowledge about my multimedia arts course and try to master basic materials, then use them in the future.

I need more practice to be better at editing and designing. Editing, like audio, is good, but I lack skills in design.

## PROJECTS

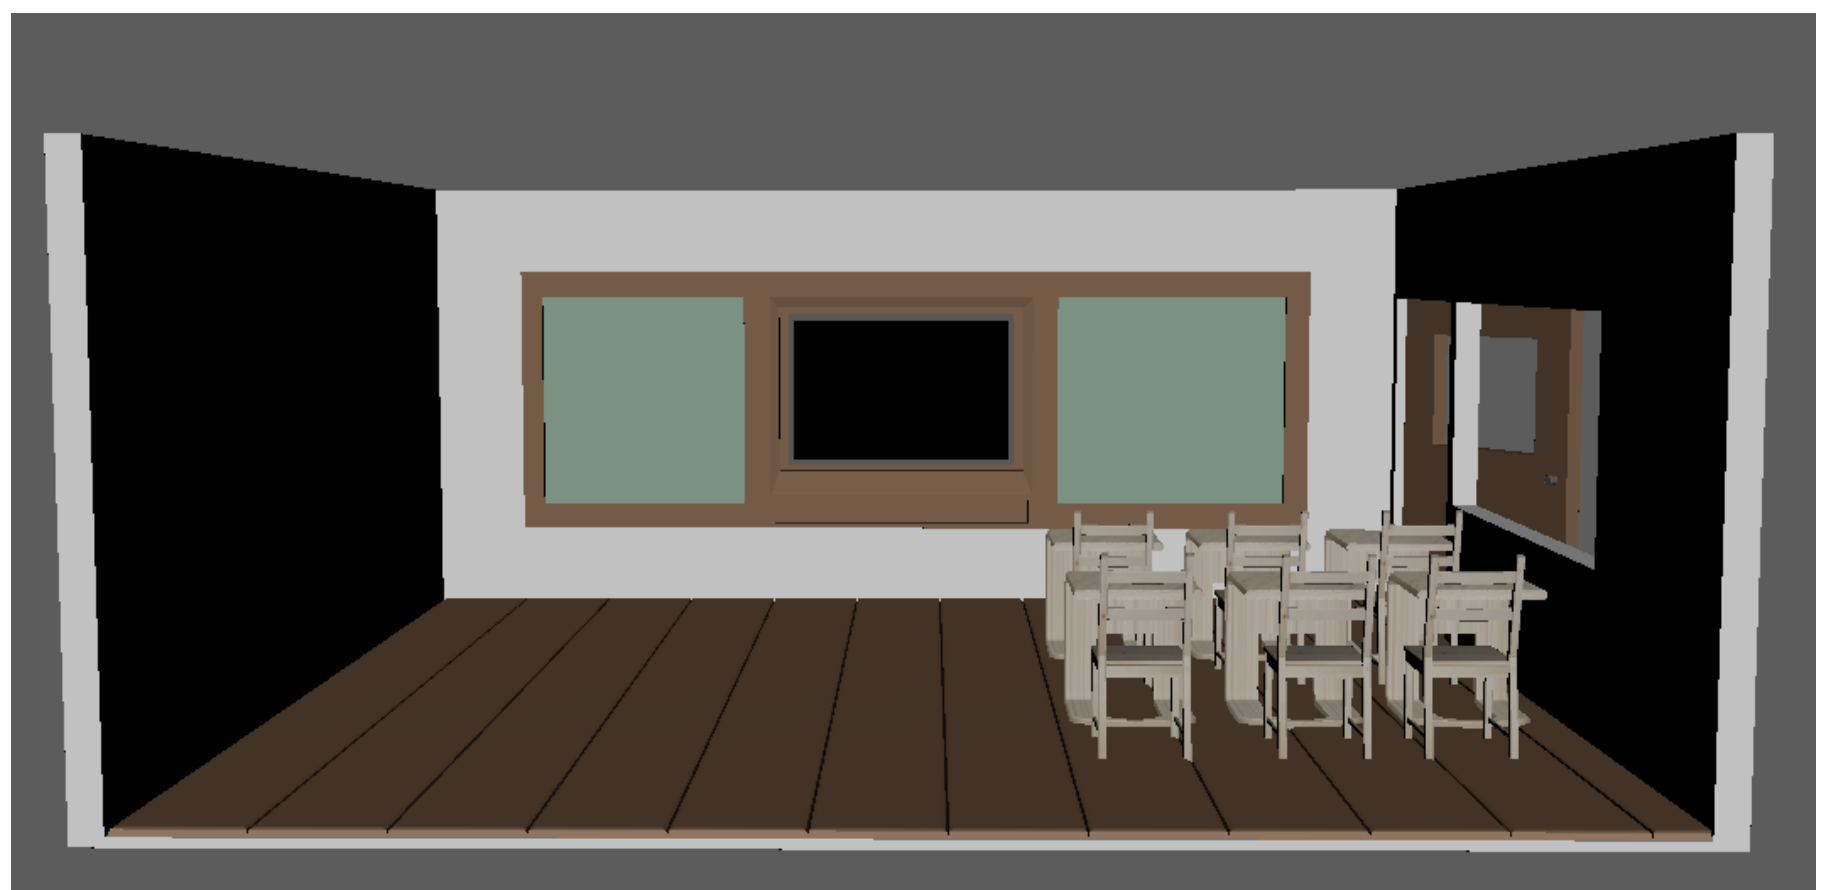

Macro-shot photography of a random spider at the cemetery. I used my smartphone to take a macro shot.

A Dominar 400 is photographed in monochrome. I used a Nikon D3200.

Two moving subjects in one frame, taken once using manual mode. I used a Nikon D3200.

This is a 3D model of a classroom. The software I used is Maya 3D, and it is our final project for game development from scratch. Unfortunately, the progress stopped because there was no more time to finish since we had to code the game to program.
